

DRAIN COVERS

While we do not make drain covers, *SlipNOT*® applied to the surface of a metal drain cover / cap will transform any drain into a safe, productive environment. Many food and beverage processing plants utilize *SlipNOT*® on their drain covers to keep workers safe in wet, greasy, and slippery work environments.

PRODUCT INFORMATION

Drain covers can be constructed from *SlipNOT*® plate, perforated plate, expanded metal, or grating. *SlipNOT*® can also coat customer supplied drain covers or new assemblies from manufacturers such as Stainless Drains or Zurn.

Available *SlipNOT*® surfaces: Steel, Stainless Steel, and Aluminum

***SlipNOT*® finishes:** Mill, Painted, or Galvanized Steel

Available in: Grade 1 (Fine), Grade 2 (Medium), or Grade 3 (Coarse - steel surface only)

Installation method: Based on drain manufacturer

Advantages

- ▶ Permanently safe replacement for bare metal or plastic temporary covers
- ▶ Stainless steel drain covers are NSF registered for food processing

MANHOLE COVERS

Traditionally, sewer access covers, or manholes, are heavy iron castings designed to provide structural integrity for vehicle or pedestrian traffic crossing over it, but not slip resistance. Adding *SlipNOT*®'s slip resistant coating to these covers ensures continued safety for pedestrians, cyclists, motorcyclists, and other vehicular traffic. *SlipNOT*® non-slip manhole covers provide a long-term, highly durable surface.

We only coat customer supplied manhole covers.

PRODUCT INFORMATION

Thickness: 1/8"

Customized shapes and sizes can be fabricated to meet job specifications

Available *SlipNOT*® surfaces: Cast Iron and Steel, among others available to designer specifications

Available in: Grade 2 (Medium) or Grade 3 (Coarse – steel surface only)

***SlipNOT*® finishes:** Mill or Painted

Installation method: Manhole cover manufacturers can provide municipal identification for unique product solution.

Approved and used by utilities such as Pacific Gas & Electric, AT&T, Verizon, City of Palo Alto, City of Denver, City of Portland, Sacramento Municipal Utility District, among others.

For more technical data regarding manhole covers, please contact East Jordan Iron Works or Neenah Foundry.

Advantages

- ▶ Long-term safety to pedestrians in all weather conditions
- ▶ Designed to provide structural integrity for vehicle or pedestrian traffic
