

FLOOR SCALES

SlipNOT® provides a safe surface replacement for diamond plate on weighing systems such as Rice Lake Weighing System's RoughDeck® SS and Auto Lift HE. *SlipNOT*® can coat customer supplied industrial scales or provide new weighing systems.

PRODUCT INFORMATION

Thickness: 1/8"

Available *SlipNOT*® surfaces: Steel, Stainless Steel, and Aluminum

***SlipNOT*® finishes:** Mill, Painted, or Galvanized Steel

Available in: Grade 1 (Fine), Grade 2 (Medium), or Grade 3 (Coarse – steel surface only)

Floor scale cover plates can be custom fabricated to meet job specifications

Installation method: Based on floor scale manufacturer

For a quote on a new floor scale assembly with a *SlipNOT*® slip resistant top plate please contact Rice Lake Weighing Systems and specify a *SlipNOT*® surface.

Advantages

- ▶ Easily retrofitted onto existing floor scale assemblies, creating a high traction surface

HANDRAILS

SlipNOT® handrails provide additional traction for employees and pedestrians, and are effective in wet environments like manufacturing plants and offshore drilling platforms. Stainless steel handrails are ideal for food plants where sanitation is a top priority and a chemical/corrosion surface is vital.

Slip resistant handrails are recommended with safety gloves due to the abrasive surface.

PRODUCT INFORMATION

Thickness: Customer specific

Length: 10' – 20'

Shapes: 1-1/2" round or square tubes

Custom sizes can be fabricated to meet job specifications

Available *SlipNOT*® surfaces: Steel, Stainless Steel, and Aluminum

***SlipNOT*® finishes:** Mill, Painted, or Galvanized Steel

Available in: Grade 1 (Fine) or Grade 2 (Medium)

Coated on one, two, three, or all sides of the rail

Sold in stock lengths only

Installation method: Welded or as provided by handrail manufacturer

Advantages

- ▶ Stainless steel handrails are NSF registered for use in food processing facilities
- ▶ Replaces or improves traditional railings with high traction surface
