PERFORATED STAIR TREADS

SlipNOT® perforated metal stair treads combine the flow through benefits of grating with the solid surface of plate. The flexible surface helps eliminate worker fatigue in environments such as automotive plants and steel mills.

PRODUCT INFORMATION

Thickness:  1/8", 3/16", 1/4"
Width:  10-12 inches (typical), or as specified
Lengths:  up to 10’
Nosing depth:  1-1/4” – 2” (typical), or as specified
Riser:  up to 7”, or as specified
Bend degree:  82, 90, or to degree angle specified
Styles:  L shaped, C shaped, or Z shaped
Perforated stair treads are available in:  Grade 1 (Fine), Grade 2 (Medium) and Grade 3 (Coarse - steel surface only)
Patterns (a wide variety of hole patterns and options available)
  ►  1/4” diameter on 3/8” diameter centers (galvanized steel not available)
  ►  1/2” diameter on 11/16” staggered centers
  ►  3/8” diameter on 9/16” staggered centers
  ►  9/16” diameter on ¾” staggered centers

Standard minimum margins or customer specific
Available SlipNOT® surfaces:  Steel, Stainless Steel, and Aluminum
SlipNOT® finishes:  Mill, Painted, or Hot-Dipped Galvanized
Installation method:  Welded or fastened to existing structures or to framing supports. Treads can be provided with pre-welded mounting plates/angles

Note: Perforation removes about 2/3 of the strength of the plates. Additional supports may be required.
