SlipNOT® road plates are ideal for high traffic areas that can become slippery with water, oil, gasoline and other substances. SlipNOT® traffic plates can be used to cover open trenches, sinkholes, and areas of road construction. They can quickly restore a jobsite back to pre-project conditions by bridging open excavations and trenches dug for drainage, cables, gas mains or water mains. SlipNOT® non-skid steel road plates can be used as a permanent structure or may be moved along as work progresses.

PRODUCT INFORMATION

**Thicknesses:** 1”, 1-1/4”, 1-1/2” typically

**Stock sizes:**

<table>
<thead>
<tr>
<th>4'x8'</th>
<th>5'x8'</th>
<th>6'x8'</th>
</tr>
</thead>
<tbody>
<tr>
<td>4'x10'</td>
<td>5'x10'</td>
<td>6'x10'</td>
</tr>
<tr>
<td>4'x12'</td>
<td>5'x12'</td>
<td>6'x12'</td>
</tr>
</tbody>
</table>

*Custom sizes can be fabricated to meet job specifications

**Available SlipNOT® surface:** Steel

**SlipNOT® finishes:** Mill, Painted, or Galvanized Steel

**Available in:** Grade 2 (Medium) or Grade 3 (Coarse)

**Installation method:** Based on municipal requirement. We can provide lift holes per specification.

**Advantages**

- Does not wear smooth or flake off after years of high traffic use
- May be used for temporary or permanent expansions
